

The Triple Aim and Behavioral Health

Alliant ASO's Behavioral Health expertise delivers on the elements of the Triple Aim: **Better Care, Smarter Spending and Healthier People.**

Alliant ASO recognizes that behavioral health is an integral part of overall health and in order to **Make Health Care Better**, there must also be focus on emotional, psychological, and social well-being.

Recovery is possible and individuals who seek out behavioral health care deserve to receive quality services with the goal of positive outcomes.

At Alliant, you gain a trusted partner who is **clinically led, technically driven and customer focused.** We use this approach to create customized, integrated behavioral health solutions to ensure that your members are receiving the right care, in the right setting, for the right duration, reducing improper payment, fraud, waste and abuse to achieve the Triple Aim.

Multidisciplinary Behavioral Health Team

Alliant ASO's multidisciplinary team of licensed behavioral health clinicians has diverse experience and expertise in all aspects of behavioral health and clinical practice. This team also has expertise with a wide range of special populations, including children placed in foster care, individuals diagnosed with Autism Spectrum Disorder (ASD) and persons receiving medication assisted treatment (MAT). With decades of experience and access to hundreds of clinical specialists, our size allows us to provide excellent customer service and adapt to customer needs—all while putting patients first.

Focus on MAT

Alliant ASO has provided meaningful feedback to managed care plans who are focused on oversight of methadone clinics. Alliant's team of skilled clinicians' uncovered prolonged utilization due to a lack of necessary psychosocial services. Individual social needs were not being met, impacting their ability to develop recovery skills and build an opioid-free life.

Why Choose Us? Technology + People

Alliant uses advanced data analytics, a skilled clinical team and system-driven clinical reviews to provide actionable feedback via tailored, system-generated reports. In addition, Alliant anticipates our customers' needs will change throughout the life of the contract, so we build upon a platform of flexibility and adaptability. At Alliant, you get the perfect mix of Technology + People. Our technology supports high quality analytics and our team brings clinical expertise to provide meaningful feedback to our customers.

Alliant provides support in various lines of work to **Make Health Care Better**, including:

- **Healthcare Quality Improvement** - We help make health care better by providing services that make health care safer and more effective.
- **Utilization Management** - We help make health care better by providing services that ensure the right care, in the right setting, for the right duration.
- **Program Integrity** - We help make health care better by providing services that ensure compliance and reduce improper payment, fraud, waste and abuse.
